In The Claims:

At claim 24, ---with modified fatty acid metabolism or modified carbohydrate metabolism---- has been inserted before "produced".

At claim 32, " of modifying" in line 1, is replaced with ---producing a corn plant with modified---; and "into corn inbred line BE9514" in line 3 is deleted. Also, in part (a), "stearyl-ACP desaturase" has been deleted; and ---or encoding antisense of stearyl-ACP desaturase-- has been inserted after the second "enzyme".

Claims 1-8 and 11-36 are allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims are deemed free of the prior art, given the failure of the prior art to teach or reasonably suggest inbred corn plant with all of the physiological and morphological traits of inbred BE9514 as listed on Table 1 of the specification, and methods of its use in breeding

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
